

It's About a Sunrise

We're talkin' about a new day comin'
People in the world are filled with doubt
From what's been done.

Talkin' about a new day comin'
Little seeds in the earth who all come out
To reach for the sun...

Chorus:

It's about a sunrise tomorrow
To open our eyes, and rise above,
It's about a new day to follow,
It's about a new way, and it's about love.

Take me to that new horizon
Where everyone can see the morning sun
And we've only begun.

Take me to that new horizon
Where all our voices rise as one
With everyone.

Chorus

Everybody's needed, and don't you feel defeated
Just 'cause yesterday's ways are all worn out.
We're off on our way and ready to climb,
It's about change, and it's about time. It's time!

It's about a sunrise tomorrow
To open our eyes, and rise above,
It's about a new day to follow,
It's about hope, it's about spirit,
It's about dreams...and it's about love.

Don't forget about tomorrow.
We depend on you.
Don't forget it's our tomorrow
Our tomorrow too.

It's about a sunrise.
