

Talk It Out

It's a magical moment, just like a miracle's occurred,
It's a magical moment, whenever everyone feels heard.

Instead of how we blame, or turn and walk away,
Instead of calling names, or pretending that it's all okay.
Instead of how we frown, or make a yucky face
Why don't we look around and find a magic place, and

Chorus:

Sit down and talk it out
Yeah, sit down and talk it out,
'Cause what's been missin' is a little listening,
So come on and talk it out.

Instead of how we shout when I become a basket case,
Why don't we work it out, face to face, and

Chorus

It's a magical moment, just like a miracle's occurred,
It's a magical moment, whenever everyone feels heard.

Instead of how we fight, instead of how we fear,
We can make things right if we can lend an ear.

Chorus

Come on and talk it out,
We'll see what we've been missin'
When we begin to listen.
Come on and talk it out.
