

## Without Your Wits

©2022 by Dr. Mac

Don't leave home without us, without your Wits  
Don't freak out or doubt us, we're just your Wits  
I'm Wit Number One for having fun, I'm Wit Number Two just for you.  
And I'm Wit Number Three to help you see just what to do.

Don't leave home without us, without your wits  
And if you forget, just whistle for your Wits.....  
And if you've got a doubt about it, I can tell you it can be the pits.....  
Without your Wits, without your Wits, (you'll be having fits, or call it quits).  
Without your Wits, without your Wits, without your Wits.
