

## And I've Got You

Whenever you're here  
It's like an angel's appeared  
What a wonderful thing we do  
When you've got me, and I've got you.

Whatever we face,  
Any time, anyplace  
What a wonderful thing we do  
When you've got me, and I've got you.

I wanna just take you home, and you can be all my own  
Fun times together, and sometimes alone.

And when I'm gettin' off track  
Well, then you've got my back.  
What a wonderful thing we do  
When you've got me, and I've got you.  
What a wonderful thing we do  
When you've got me, and I've got you.

And one plus one becomes more than two...  
When you've got me, and I've got you.  
You've got me, and I've got you.
